

Polar Shades Bottom-Up

Motorized Roller Shade System

- ⚙ Bottom-up shade retracts to lower position.
- ⚙ Line Voltage AC motor raises and lowers the shade.
- ⚙ Take up cords attached to external hem bar with eyelets facilitate shade extension.
- ⚙ Tension boxes positioned above the shade keep cord in taut position during all stages of shade movement.
- ⚙ Fascia measures 4" high with a 2.75" lip and snaps into a 4" x 4" bracket with optional snap on end cap.
- ⚙ Fascia is positioned in regular orientation at top and flipped at bottom.
- ⚙ Adjustable idle end bracket allows shade to be leveled while in place.
