The PolarTech Tension Shade combines style and functionality, offering a sleek, sophisticated shading solution for your home or business. Custom-built to meet your needs, this innovative system uses advanced technology to keep outdoor spaces comfortable year-round. Ideal for pergolas, sunrooms, solariums, patio openings and exterior doors and windows or any space where shade is essential.

- ▶ **VERSATILE** engineered for flexible installation, it can be mounted in either a horizontal or vertical orientation to meet your shading needs.
- ▶ **BETTER PROTECTION** featuring zip track fabric guidance with preset spring and belt tensioning, this system delivers exceptional control and superior protection against sun and wind.
- ▶ **SQUARE CASSETTE DESIGN** sleek and functional, it encases the fabric roller to shield it from the elements and ensure long-lasting

MADE IN THE U.S.A.

The PolarTech Motorized Tension Shade System takes horizontal, slanted, and vertical shading to the next level. Its streamlined 5" cassette housing, paired with our spring and belt tensioning system and zip track fabric guidance, combines practicality and style in addressing all your sun control needs.

The Tension Shade offers excellent versatility for multiple applications. It can be mounted above an existing substructure, wall, or soffit, mounted to a structure in an open area with front support posts, installed vertically on patio openings or windows, and even installed on the interior or exterior of a structure as a solution for skylights.

A variety of fabric options is available, ranging from solar screen mesh materials to opaque shading fabrics, all designed to custom fit and cover an area up to 16' wide with a 16' projection. Multiple units for expanded coverage can be installed side by side with minimal gaps between them.
